

Concentrated Tile Clean

Concentrated Tile Clean is part of the Professional Tile Maintenance Range. It is a concentrated hard surface cleaner specifically designed for use in the routine cleaning and maintenance of tile and other hard floors.

- General purpose tile and floor cleaner
- Fresh and clean scent
- Suitable for nearly all water washable surfaces

Technical Information

APPEARANCE:	Pale Blue
ODOUR:	Bio Blue
pH:	~14.0
DENSITY:	1.0 kg/L approx.
SOLUBILITY:	Soluble in water
COVERAGE:	up to 150m ² /L depending on dilution

DIRECTIONS

- Note** Read Safety Datasheet before use. Always test an inconspicuous area first to ensure suitability for use, particularly on polished surfaces. Not suitable for use on calciferous stone or acid sensitive surfaces such as marble, limestone, chrome etc. Not suitable for use on floors sealed with Larsen Floor Polish.
- Suitability** Suitable for use on porcelain, vitrified, glazed ceramic, certain types of natural stone, quarry tiles, vinyl, timber flooring.
- Directions** Dilute as required depending on the level of soiling. Better results are obtained through using warm water. For areas of light soil mix 50ml per 5L water, for areas of medium soil mix 100ml per 5L water, and for areas of heavy soil mix 150ml per 5L water. Before application remove any loose or dry material from the surface to be treated. Apply the solution liberally to the floor by mopping or with a scrubbing machine. Pick up the 'dirty' water completely by mop or wet vacuum. Rinsing is generally only required in areas of heavy soil. When mopping it is advisable to use a 2 bucket method of cleaning.
- Contains** Non-ionic Surfactants, NTA, IPA (5 - 15%), Anionic surfactants, QAC (< 5%), Builders, Perfume, Dye
- Storage** Store in a cool dry place out of direct sunlight.
Keep only in original container, locked and out of the reach of children.
- Shelf Life** 12 months in unopened manufacturer's containers.
- Packaging** 1L and 5L containers.

HANDLING PRECAUTION Larsen products are generally safe provided they are used as instructed and that certain precautions normally taken when handling chemicals are observed eg, do not allow any material to come into contact with foodstuffs. Avoid prolonged contact with skin. Do not swallow. For specific product safety details consult the Material Safety Data Sheet.

IMPORTANT NOTE The information given in this data sheet is based on both current development work and many years' field experience. Whilst every effort is made to ensure that the information is reliable we cannot accept responsibility for any work carried out with our materials as we have no control over methods of application, site conditions etc.
